Hot off the Griddle

AN ENGLISH CONVICT has appealed to King George to leave his prison cell long enough to say goodbye to his dying mother. Under British law a prisoner may not leave prison under any circumstances. But the appeal of an erring son for a last look at the mother who bore him is touching, and the King of England, himself a good son while his mother lived, and an excellent father and husband now, may feel the pathos of this cry from the dungeon.

A NEW YORK COUPLE, poverty-stricken, go to Atlantic City for the last fling and then attempt a suicide compact. The woman may die. The man, if he lives, will face a charge of murder. They were so far down in the scale of existence that they could not even make a success of suicide. Life presents its dark moments to every one. The long road is full of rocks and deliriums. Biographers say Lincoln once contemplated suicide. Thomas Chatterton, poetic genius, killed himself at 17 because he was starving. Had he lived he might have been among the immortals. Voltaire, disillusioned when young, was saved by a sense of humor. He lived a long, busy life and his name will exist so long as the printed word is used. Life is what we make it. It can be good to us if we are brave and have faith in our own immortal souls. Death is oblivion. That is all we can prove about it.

A PITTSBURGH CORPORATION has taken out twenty-five millions of dollars in insurance for the protection of its employees. That is a constructive step and creates good will among the workers. Such a company will prosper and its employees will prosper with it.

ALBANIA WANTS ITS MONARCHY restored. It offers the crown to Achmed Zogu, who had a crown and regal robes made and packed away, ready for the emergency. Albanians are tired of their republic because elections are so much bother, but they should study the growth of the United States. We have no king here, but a President who possesses such powers as no monarch ever had, even in the good old days of the monarchical idea. No sovereign and no premier has the home power and world power

HERBERT CAMP DIES IN CRASH

Friends of Mr. and Mrs. Arthur W. Camp of 434 Clayton avenue, El Cerrito, will be grieved to learn of the death on Monday of their son, Herbert R. Camp, 39 of San Luis Obispo. Camp was driving in his car on the highway some two miles out of San Luis Obispo when his car turned over and his neck was broken. He was a native of England.

Surviving Camp are his father and mother, three sisters, Mrs. R. M. Steele of El Cerrito, Miss Agnes Camp of San Francisco and Miss Winifred Camp of Vancouver, England, Sydney, of Vancouver, Kenneth of San Francisco and Leslie R. of San Luis Obispo. Funeral services will take place from the mortuary of Wilson and Kratzer at 2 o'clock, Thursday afternoon. Interment will be in Sunset View cemetery.

BODY FOUND SUSPENDED IN GARAGE

The small body of Edward Marion Hauke, 8, yesterday full of life and energy, today lies in a local mortuary. The child was accidentally the taker of his own young life.

At 9 o'clock last evening the grief-stricken parents discovered the lifeless body of their child suspended from a rope hanging from the rafters of their garage at 517 Eighth street. Beneath the dangling little legs was the pitiful evidence of the tragedy. A discarded chair, precariously balanced on an old sanitary couch was placed beneath the rope, and Edward had been doing "stunts."

Edward returned from school yesterday afternoon and changed his clothing in order to run some errands for his mother, Mrs. L. Hauke. Jim and Jack, his eleven-year-old twin brothers, not yet having arrived at home, little Edward went out to the family garage to play. When he did not appear for supper his parents became alarmed and began looking about for him. Later, at 9 o'clock the father, John B. Hauke, reported to the local police that he and his wife had just located their son, dead, in the garage.

According to Dr. J. B. Spaulding, who examined the body in the parlors of Wilson and Kratzer, the shock from sudden loss of support prevented the boy from saving himself. He believes the accident to have occurred at least three and a half hours before it was discovered.

The mother is in a serious nervous condition herself although her two sons and husband are comforting her as best as they can. Mrs. Hauke is also the mother of Joe and Tom Gurney, both young men. An aunt is also in the family, a Miss Mary Kelly.

There is every evidence that the tragedy was an accident.

Mr. and Mrs. R. F. Dolan of 444 Thirteenth street, left yesterday for a vacation in Jackson, Amador county, where they will visit Mrs. Dolan's father.

U.S. Engineer Hears plan For Tomasini Span

Formal application for permission to construct a highway bridge between Sausalito and Belvedere was made yesterday in a hearing before U. S. District Engineer Major E. H. Ropes by T. J. Tomasini.

The proposed structure would cost \$667,000 and would be more than a mile long, according to plans, with a central lift to give 50 foot vertical and 80 foot horizontal clearances.

The single objection to the plan came from C. L. Arques, Sausalito shipbuilder, who asked for greater clearances. Tomasini and his engineers expressed willingness to abide by the War Department's ruling on the point.

The bridge is one of a series contemplated to provide an unbroken highway between the East bay and Marin county.

Tomasini asked for immediate action on his application in order that he might complete the bridge in time for the opening of the summer season next year. Major Ropes said he will forward the application to Washington at once.

At present a small ferry operates between Sausalito and Tiburon. By road the distance is eleven miles and Tomasini says his bridge will cut this to 1 1/2 miles.

Tomasini's proposal to connect San Francisco with his contemplated Albany Marin bridge will be heard by the Board of Supervisors September 11. His plan calls for a combination bridge and tube, the latter to be 11,200 feet long, starting from Bay street and Grant avenue and running to a bridgehead in shallow water north of Goat island. At this point a bridge would be built to bisect the Marin-Alameda county bridge.

Foresters Plan Pageant In S. F.

Frank A. DePatta, grand chief ranger of the Foresters of America, and Charles Ellsworth, manager of the California state educational pageant of that order, will visit Richmond committees in the pageant to be held in San Francisco at the Dreamland Auditorium, October 27, 28 and 29.

They will be received in Richmond by Grand Chief Ranger F. C. Jones of court progress No. 260.

As soon as the committees have been picked, rehearsals will go forward without delay, in preparation for the great spectacle to be presented in October. The cast of six hundred will be drawn from Foresters and Companions of the Forest throughout California, in the pageant which will be presented for the purpose of bringing to the public the ideals behind the fraternal order. It will be the most elaborate ever presented by the order in California and has the support of Foresters from the Oregon line to San Diego.

CAE DAMAGED

C. Stevens of Pinole reported to the police last night that an unknown Dodge touring car side-swiped his car which was parked on Gaynor avenue between Twenty-third and Twenty-fourth streets. The driver of the Dodge did not stop although there was slight damage to Stevens' car.

KANSAS CHIEF PREDICTS BIG WOMAN BALLOT

SUPERIOR, Wis., Aug. 28—(U.P.)—A republican victory made possible mainly by the vote of women and farmers was forecast here tonight by Senator Capper of Kansas in a lengthy conference with President Coolidge.

The Kansan, leader of the farm bloc in the senate, reported to Mr. Coolidge that Herbert Hoover would not lose an appreciable number of farm votes. Little agrarian opposition is manifest against the republican candidate, Senator Capper said.

Despite some dissatisfaction for Hoover, most farmers will remain in line rather than vote for a wet candidate, he predicted.

Capper told the chief executive he believed Kansas, Nebraska and Oklahoma, three of the principal farm belt states, would go safely republican.

Secretary of the Interior West, an overnight guest at the summer white house, also brought the president an encouraging report on the general political situation. In West's opinion, Governor Al Smith has reached the crest of his popularity with the voters and henceforth will gradually decline while Hoover is making steady advances.

The secretary is enroute to the northwest to inspect reclamation projects and Indian reserves. Mr. Coolidge, it became known, is alarmed over the federal deficit of \$94,000,000 for the current fiscal year as computed by Budget Director Lord. He is planning to call a conference of the various department heads immediately on his return to Washington.

Red Cross Will Conduct Course In First Aid

Richmond chapter of the American Red Cross will begin a ten-week course in first aid work next Wednesday night in headquarters, according to Mrs. Katherine Rogers, secretary. The course is limited primarily for leaders of Boy Scout and Girl Scout troops and similar organizations and will be limited to 25 members.

Dr. Bungarner will conduct the classes which will be held from 7:30 to 9 o'clock. The latest devices in first aid work will be explained.

Members of Hi-Y Plan For Dinner

The boy's Hi-Y held their second meeting of the fall term last night at the local Y. M. C. A. with Frank Fenix presiding.

The boys voted to have a dinner next Tuesday and to have a prominent speaker at that time. The dinner will start at 6:30 sharp and all Hi-Y boys are urged to get their tickets a few days beforehand.

The last part of the meeting was turned over to Carlson, who led the group in a discussion on World Brotherhood groups.

SHOTS FLY IN BERLIN RIOTS

BERLIN, Aug. 28—(U.P.)—A group of communist demonstrators protesting against the proposed construction of a new German battleship attacked guards here tonight and were fired upon.

Three persons were wounded seriously and a score were hurt in the rioting.

The police were compelled to fire when their attempt to halt the demonstration nearly caused the communists to turn on the officers.

The demonstration was the result of a vote by the cabinet to construct a huge new cruiser.

Socialist leaders who control the cabinet of Chancellor Mueller permitted the vote to carry despite strong socialist opposition to the ship program before the election.

Socialists charged the leaders had crossed their party in order to bargain for support of other party leaders in the cabinet.

Visitors' cousin Miss Ida Myers of Portland, Oregon, is visiting with her sister, Mrs. P. K. Barber of 1419 Chanslor avenue.

INCUMBENT HOLDS LEAD OF 2 TO 1 OVER DAVIS IN CONTRA COSTA, MARIN

The primary election vote in this county and Marin county was very light yesterday, about a 25 percent vote being cast, which resulted in the re-election of W. R. Sharkey as state senator.

Fifty-four precincts complete in the western end of the county extending from Pinole to El Cerrito and including Richmond gave Sharkey 2652 and Davis 1063.

In the eastern end of the county and the central portions, the vote was incomplete at the time the Record-Herald went to press, but it was running in about the same proportion as in the western section.

In Marin county 33 precincts out of 81 gave Sharkey 1598 and Davis 797, and the returns coming in were in about the same ratio.

In the two counties there were hundreds of workers out for Sharkey and the statement was made late yesterday afternoon that there were 1700 in the field in the two counties.

Davis failed to carry a precinct in the western end, and this was due to the fact that he was not able to get his votes to the polls, on account of a lack of finances.

In the supervisors fight in the second district, which takes in Crockett, Port Costa, Lafayette, San Ramon and Tassajara, in which supervisor Oscar Olsson of Danville and A. Aljets of Crockett were the contenders, late reports last night, while they were incomplete.

The vote in San Francisco was proportionate to that in other parts of the state and most optimistic predictions were that 100,000 ballots would have been cast here when the polls close at 8 p. m., as compared with 130,835 at the primary two years ago.

High state offices were not at stake and consequently the most important office before the voters was that of United States senator, which Hiram W. Johnson was seeking to fill for the third consecutive term. His campaign leaders predicted Johnson would receive a majority of from 300,000 to 600,000 votes.

Speaking before last night's meeting of the Exchange club held in Hotel Carquinez was Earl Morton of the Fleischman Yeast company who told of the manufacture and characteristics of yeast. Illustrated pictures were employed by the speaker. B. L. Spurr was chairman of the meeting.

Lloyd Bolt will be chairman of the next meeting of the club.

MODERATE VISITOR

James C. Wasley formerly connected with the Eagle Creamery in Richmond and now principal of a Modesto elementary school was a visitor in Richmond yesterday.

CORRECTION

A comparative table showing the amounts to be raised by taxation for various funds, published in yesterday's edition, indicated a rate of 4 cents for the library fund. This should have been 10 cents.

Local Vote Tabulated

In 54 precincts in the western end of the county, from Pinole to the county line, in which the count was complete last night, Sharkey had 2652 and Davis 1063. The appended table shows the vote of the two candidates in the different precincts.

France Plans Expansion Of Its Schools

PARIS, Aug. 28. (U.P.)—France is about to embark upon a vast program of educational exten-sion. This is largely due to the persistence of the present Min-ister of Education and Fine Arts, M. Edouard Herriot. Inspired by the initial success of the Cite Universitaire, which will soon provide quarters for the students of nearly a score of nations, he has seen the possibility of giving France a unique position in the intellectual world.

M. Herriot is what the French delight in calling the "erudite." He is a veritable book-worm, learned in various sciences, a man of logic and persuasive phi-losophy. As Premier, in the midst of a post-war political turmoil, and as Minister of Finances he was clearly out of his element. But once established in educa-tional spheres, he took up his task of collaborating with M. Poincare with a singular sense of its possibilities.

The next French parliament will be asked, M. Herriot has infor-med his colleagues, to vote credits for the extension of the Cite Universitaire movement to the provincial universities. In ad-dition, more extensive interchanges of professors with foreign uni-versities and awarding of scholar-ships for study abroad are to be arranged. Offices are to be es-tablished in the principal coun-tries to give information concern-ing the curriculum of French universities and colleges.

AUXILIARY OF VETERANS HOLDS WHIST

Richmond unit No. 10, Amer-ican Legion auxiliary, held a whist party last night in Memorial hall following a short business meeting presided over by Mrs. Claire Barry.

The Richmond unit is elated over one of its members, Mrs. Catherine Garcia, who was high score holder during the evening. The prize was held recently by Miss Sacktoe. Mrs. Gill will pay a visit to the local organization shortly.

Reports of the delegates, Mrs. Barry said, Mrs. Nina Vickery, will be delivered at the next meet-ing on September 10.

Held at 8:30 p.m. at the whist party were Mrs. B. C. Mac-Cough, Mrs. Felger, Mrs. L. Jones, John Souza and Miss Is-bel Dux.

The door prize was awarded to Mrs. Ringot.

Odd Fellows To Hold Final Whist of Series

The whist party given this af-ternoon by Past Noble Grand association in Odd Fellows hall will complete the series spon-sored by the organization. Funds gained from the affair are to be used in making up Christmas boxes for residents of the Odd Fellows' Old People's Home at Saratoga.

Today's committee in charge of arrangements includes Mrs. Viola Sacktoe, Mrs. Catherine Gar-cer and Mrs. Amy Pearson.

Truancy Drops With Schooling More Flexible

ALBANY, N. Y., (U.P.)—Adjust-ing the school to the various types of children, rather than adjusting the children to the school is part of the system of education as developed by the state department of education.

Not very long ago said Chas. L. Mosher, attendance director of the department, a child was sub-ject to an inflexible course of study from the first grade to high school graduation, and in that period education literally was shoved into his head, no allowance being made for mental ability or emotional adequacy.

"But this system," explained Mosher, "after years of study has changed and will continue to change. Adjusting every year of school to the child means greater power. There are as many differ-ent personalities as there are children and as many stages of native capability. Today we do not ask a boy to absorb more than he has power to, and thus we avoid the conflict and rebellion bred in the old system."

"There is more human relation-ship between pupil and teacher, too, which has created a greater freedom and a better understand-ing. I attribute much of this to the development of physical edu-cation and the closer role the teacher has had on the play-ground."

The wider scope of the educa-tional objective has solved for the most part the truancy problem, Mosher said.

"We are still troubled to some extent by such factors as foreign born parents and economic hard-ship making for illegal absences but the truant of the old type, who stayed out of school as an expression of rebellion against the order of things has disappeared."

Vienna, Austria, has instituted a special department of traffic police, apart from the regular po-lice force.

The Paris Automobile Salon is to be held this year from Oc-tober 4 to 14.

Rhodes-Judkins Nuptials Are Set For September 9

The Rhodes-Judkins nuptials, now definitely set for September 9, will be one of the best of the early fall weddings.

Following the ceremony there will be a wedding breakfast at the home of the bridegroom's parents, Mr. and Mrs. P. W. Judkins, 1016 Nevada avenue. The couple will start on their wedding trip "some-where in the north" following the breakfast.

The bride, Miss Alice L. Rhodes, was formerly a Richmond girl, having graduated from the local high school. She resides in Berkeley now with her parents.

Perry W. Judkins, bridegroom, is the son of Mr. and Mrs. P. W. Judkins of 1016 Nevada avenue. He attended local schools and is at present employed with the Blake Bros. Quarry company.

The couple plan to make their home in Richmond following the return from a week's honeymoon.

Men's Dinner Is Held In Church

At a men's dinner in the First Presbyterian church last night, members of the Good Fellowship club met to reorganize. Fred Newsum presided. New Razor Blade Sensation

Marvelous Engineering Achievement by World-Famous Manufacturer Wins Popular Favor

Now the fellows with tough beards and tender skins have no excuses for imperfect shaves. No complaints about old-fashioned razor blades that pull and scrape. The Valet AutoStrop Razor—with the new "VALET" blade—is a shaving wonder. The AutoStrop Safety Razor Co., which developed it, have had all the practical experiences that make up a quarter century's devotion to shaving problems.

Introduced to the public a short time ago, this new "VALET" blade has received wide acclaim—and dealers everywhere report unusual sales. The name VALET cut through the blade identifies this shaving marvel. Now you can do your shaving "trick" in less than 2 minutes. The first shave—and many shaves after, with the same blade—brings home to you quite forcefully the fact that shaving can be a pleasure instead of a habit.

Not just a habit—but a pleasure

Try the Valet AutoStrop Razor—with the new "Valet" blade. The first, second—even the tenth or fifteenth shave with the same blade, convinces you beyond doubt that before your shaving was only an uncomfortable habit—now it's a pleasure.

MIGHTY THEME MORAL LESSON IN FILM HERE

There was once an idea prevalent that only simple minded or weak willed girls became delinquents but the fallacy of this idea is now quite generally recognized. In fact the morose, white slavers, Good Time Charlies, "Foxes" do not trouble with unattractive girls. The more beautiful and spirited, the more desirable and worthwhile a girl may be, the more eagerly she is pursued. And the brightest girls are often the ones who seek most eagerly to prove the mysteries of life.

The sad fable that often overtakes these day little adventurers who pit their puny strength against the mighty forces of life is the theme of "The Road To Ruin," which will be shown this California theatre today.

This picture, which is intended for adult consumption, is a very forcible dramatization of an actual case of juvenile delinquency and is startlingly frank in its handling of a very delicate question. Helen Foster, an exquisite little blonde, renders a remarkable characterization as the school girl who goes astray, while the work of Virginia Rove and Grant Withers is also noteworthy. Others in the cast are Tommy Carr, Florence Turner, Charles Miller, Al Rader and Ed Dunn.

"Live News," a Mermaid comedy, "Builders of Bridges," an Educational special and Kinogram News will also be shown.

Musical Show At California Opens Sunday

There's something new under the sun. It's Nat Holt's comedians, a traveling organization of popular entertainers intent on giving interior California cities the same high class musical comedy stock company productions as proved so popular in San Francisco and Oakland, where they recently completed a record-breaking engagement of three successive years.

The idea was conceived by Nat Holt, popular theatrical producer, known throughout the west for his high quality musical shows. He transports his entire company from city to city, in mammoth automobile busses, it being the only motor bus touring company in the west.

Twenty members comprise the company which includes such well known funsters as Bobby Fitzsimmons, the Knight sisters, Valerie Noyes, Jimmy Edwards, May Ferlando, Clarence Wurdig, Ben Broderick and the famous Golden Gate quartette, and Elaine Kingstone.

Sunday is the day scheduled for the opening of Nat Holt's comedians at the California theatre and they will come to Richmond every Sunday thereafter with an entire change of program.

"Hello Everybody" is to be the production for Sunday and Holt promises 90 minutes of rollicking fun for his first show.

There's a close-up of A. M. Bowles, northern division manager of West Coast theatres, A. W. Cornelius and Manager Dan Reardon receiving congratulations on the wonderful achievement and successful opening.

Then, too, a wonderful closeup of the beautiful floral tributes which littered both the inside and outside lobbies.

Folks who have not yet seen this unique film should attend the theatre this week. Its lots of fun locating one's self from among the crowds, and everyone should get a "kick" out of the reel even if they do not see themselves in the picture.

Birthdays Film Showing Here

The crowds go wild at the California theatre which is celebrating its sixth anniversary week with a special showing of pictures taken the opening day of the Theatre six years ago.

A gasp—an outburst of laughter—then thunderous applause at the styles, vintage of 1922. The funny big hats, long dresses, coats, etc. A vacant lot next door now occupied by Albert's. Even a horse and wagon.

Greta Garbo Plays Spy In Newest Movie

As the exotic heroine of a spectacular drama of military intrigue that spread through Europe before the world war, Greta Garbo scores another screen triumph in "The Mysterious Lady," which is coming tomorrow to the California theatre as a Metro Goldwyn Mayer feature production.

In the new picture Miss Garbo is seen as a beautiful Russian spy. Conrad Nagel plays opposite her as the young Austrian officer who falls under her charm and is disgraced. A thrilling climax brings them together again.

Fred Niblo, who also directed Miss Garbo in "The Temptress" handled the megaphone on the new production, filming the story from an adaptation written by Bess Meredith from an original by Ludwig Wolff, German novelist.

Included in a stellar supporting cast are Gustav von Seyffertitz and Edward Connelly.

"LOVE" BRINGS TWO BIG STARS IN LEAD ROLES

John Gilbert and Greta Garbo, who as a team score one of the sensational successes of the year in "Flesh and the Devil," and whose real-life romance immediately following furnished gossip for film fans the world over, appear again before the camera, for the first time since, in "Love," Metro Goldwyn Mayer's spectacular film of "Anna Karenina," Tolstol's classic of Russia, which comes to the Richmond theatre tonight.

The new picture, one of the most gorgeous and spectacular film romances of the season, presents both in roles that perhaps fit them better than any others that could be imagined. Gilbert, splendidly uniformed, is seen as the debonair and romantic Count Vronsky, a role that recalls his great hit in "The Merry Widow," with Miss Garbo in the role of the tragic Anna, who sacrifices all for love, only to be dogged by a strange and sinister doom.

Edmund Goulding directed the new picture, which was staged on a lavish scale. The cast is notable, including George Fawcett, who played the king in "The Merry Widow," as the Grand Duke, Brandon Hurst as the husband, Count Karenin; Philippe De Lacy, Emily Fitzroy, and others of note.

Among the players are several interesting characters; Prince Youca, Troubetzkoy, playing a staff officer, General Michael Pleschko, former Russian army commander, who fled from the revolution and General Theodore Lodi, another Russian refugee, as generals on the Grand Duke's staff.

Spectacular reproductions of Russian castles, a great cathedral a thrilling series of maneuvers of the Russian officers and other elaborate detail form a background for this vivid story of the love between the young count and the heroine of this vivid play.

The picture is one of the most pretentious productions of the new season and one of the most interesting screen dramas of years.

ORDINANCE NO. 15

AN ORDINANCE FIXING THE AMOUNT OF MONEY NECESSARY TO PAY TAXES AND LEVYING A TAX UPON ALL PROPERTY WITHIN THE EAST BAY MUNICIPAL UTILITY DISTRICT.

INTRODUCED BY DIRECTOR STRINGHAM. Seconded by Director BOYER. Be it enacted by the Board of Directors of the East Bay Municipal Utility District:

Sec. 1. That in the opinion of the Board of Directors of this District the revenues therefrom will be sufficient to pay the principal or interest on the bonded debt of the District as it becomes due or to carry out the objects and purposes of the District and that the amount of money necessary to be raised therefor by taxation is the sum of \$1,677,373.14.

Sec. 2. That the Board of Directors having heretofore elected to avail itself of the assessments made by the Assessors of the County of Alameda and Contra Costa, respectively, and to take such assessments as the basis for District taxation, and to have the same collected by the county officials of such counties.

Now, therefore, pursuant to law the said Board of Directors do fix the rate of taxation for the East Bay Municipal Utility District for the fiscal year beginning July 1, 1928, and ending June 30, 1929, at 41 cents upon each hundred dollars of the valuation of property as so assessed by the said county assessors of Alameda and Contra Costa Counties for the property within each respective County, said rate of tax being sufficient to raise the amount hereinafter fixed by the said Board of Directors as required by law; and said Board of Directors does hereby levy a tax at said rate on all property within the District.

Sec. 3. The Secretary is hereby instructed to immediately transmit to the county auditors of said counties, respectively, a statement of the rate of taxation so fixed and of the tax levy so made by the said Board of Directors by filing with each of said county auditors a certified copy of this ordinance.

Sec. 4. That out of the sum raised by the foregoing tax levy there shall be set aside in the sinking fund to pay for the outstanding bonds of the Mokelumne River Project of the District the same become due, the sum of \$276,596.75; there shall next be reserved a sufficient sum to pay the interest on any of such bonds and any bonds that may be issued by the District which interest may become due before the next general tax levy; any balance of the sum so raised shall be used to carry out the objects and purposes of the District.

ATTEST: JOHN H. KIMBALL, Sec'y

I HEREBY CERTIFY that the foregoing Ordinance was duly and regularly introduced at a Regular Meeting of the Board of Directors of the East Bay Municipal Utility District, held Friday evening, August 17, 1928, and that it was finally passed at an Adjourned Regular Meeting of said Board, held in the offices of the District, Ray Building, 1924 Broadway, Oakland, California, on Friday evening, August 24, 1928, commencing at 7:30 P. M., by the following vote:

Ayes: Directors Boyer, Miller, Latham, Stringham and President Pardee.

None: None.

Abstentions: None.

Thereupon, it was filed in my office on the same day and subsequently was recorded in the Record Book of said Board.

TEN PER CENT OF OAK AUTOS FAIL IN TESTS

About ten per cent of three automobiles in Oakland are being operated with defective brakes, it is indicated in the results of the first week's work in the current brake test campaign made public by the Eastbay Safety Council, one of the agencies of the Community Chest.

To date the police squad in charge of the tests have stopped 1523 automobiles for tests, and of these "tags" were written for 159 of them for failure to stop within the distance prescribed by the Bureau of Standards at Washington.

The campaign will be continued intensively with the testing squad being moved from one section of the city to the other until definite results have been accomplished, according to Chief of Police Donald L. Marshall.

A report on the work will be given by the men from the field at a meeting of the board of governors of the Safety Council at the Athens Athletic Club Friday noon. At this meeting the testing squad including Wallace Hewitt, William De Long, Delbert Erickson, Vernon Swartz and Leo Brandt will be guests of the Council and will tell of their experiences in making Oakland safe against bad brakes.

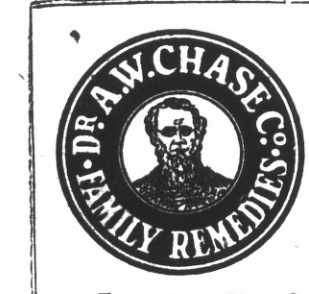

At the meeting Police Judge E. J. Tyrell will speak in favor of compulsory insurance, outlining his reasons for believing that California should follow the example of Massachusetts with this type of legislation. Lee H. Newbert, president of the Safety Council, will act as chairman. The meeting is called under the auspices of the legislative committee which will be represented by Edward D. Lannells.

Creamery Will Be Remodeled

To provide accommodations for the increased business in the Eagle creamery store at 718 Macdonald avenue, alterations are under way which will add considerable space to the present store.

The office section to the rear of the building has been removed providing room for additional tables and booths which are being painted to conform with the rest of the ice cream department. The entire front of the store will be repainted to add to the attractiveness, according to John Silveira, president of the company. During the remodeling, the work will not interfere with business. With the completion of improvements, the store will have accommodations to compare with the best in the Eastbay.

Applicants For License Given Tests

SACRAMENTO, Aug. 28.—False statements made by prospective drivers of automobiles concerning their age, driving experience, physical condition or other qualifications in making applications for license will result in the immediate cancellation of such licenses, the Division of Motor Vehicles announced today in making public the names of four persons who lost their operators cards during the last month on this charge.

The division, it was stated, is required under the new law to examine all persons applying for an operator's license for the first time and is handling applicants throughout the state at the rate of about 100 daily.

All applicants are required not only to submit to an examination of their eyesight, general physical qualifications, ability to read road signs and knowledge of the motor vehicle act as well as a practical test of their ability to handle a car.

It is much better, division officials declared, to give the correct information in the first place as subsequent check-ups by the examiners nearly always uncover false statements.

The four persons whose licenses were revoked for giving false information are Bradford, Bertha; Roseville, Robert J. Balford Jr.; San Diego, Carmelita Polmar, Oxnard and Jessie Mae Stone, Los Angeles.

The license revoked were a part of a total of seventy revoked during the last month for various causes, of these thirty-six were for driving without a license bringing the total for the year in the divisions' war against drunken drivers up to 218.

Mother of Film Comedian Dies

GLENDALE, Calif., Aug. 28.—(U.P.)—Mrs. Hannah Chaplin, who gave the world its premiere clown, Charlie Chaplin, died today.

Gaiety and tragedy, luxury and abject poverty marked her varied life that led through the music halls of Europe to light opera. From a garret in London to a haven on the shores of the Pacific.

Always when comfort and happiness were near, sorrow intruded. At last apparent recovery from a mental disorder was checked by death.

Ten years ago, after her sons had won fame and fortune, Zepherina soared over her London home, dodging among the long fingers of search lights, and dropping bombs. A particularly dangerous raid caused her mind to become broken, and after the war her sons, Charlie and Sydney, also famous as a film actor, brought her to the United States.

Lillie Harley, as she was known to the stage of London, was a singer of considerable repute. She married Charles Chaplin, a proletarian actor. He died 30 years ago, leaving her with the two boys to support.

School nurse says 'all girls should know this'

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically, and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless. It works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

READ IT FIRST IN THE RECORD-HERALD

Telephone Daddie of Talking Movies

Above: Madge Bellamy, Fox star, impersonating Sir Harry Lauder in the picture, "Mother Knows Best." Below: Inspecting a wax disc upon which sound vibrations will be recorded. Both the film and the disc types of productions are made by means of the Western Electric System of Sound Pictures.

There's no doubt about it, "talking movies" have set the motion picture world by its ears. By this time, most of the leading producers have announced their intention of using sound in their future productions, either in the form of a musical accompaniment or the human voice. Thousands have seen and heard sound pictures; and wherever you go, movie fans are talking about them.

But while many theatre-goers have enjoyed this new form of screen entertainment, very few of them seem to have even the slightest idea as to how they are made. A bit of inquiry into the matter brings to light all sorts of interesting facts.

In the first place, it is interesting to know that the "daddy" of these sound pictures is our ordinary, every-day telephone. Authorities tell us that it was while engineers of the Bell Telephone Laboratories in New York were making a careful study of the ways in which speech is produced—so that they might discover the best ways of transmitting and reproducing it—that they developed the successive steps which have led up to this newest thing in motion pictures. Those steps are doubtless fascinating to engineering minds, but to the layman they are a bit too technical for easy understanding. For most of us, it is enough to know that sound has been synchronized with motion picture film. And here is how it is done:

There are two different methods of making sound pictures. The first is known as the "disc" method. With it, the sound is recorded on a wax disc resembling an ordinary phonograph record at the same time that the motion picture scene is being photographed. With the second method—known as the "film" method—the sound is photographed by means of light variations on the side of the film itself. Both these methods were developed by the Bell Telephone Laboratories for the Western Electric Company, who first licensed Warner Brothers to use the disc method in making their "Vitaphone" presentations, introduced to the motion picture world in the fall of 1926. A few months later the Fox Case Corporation was licensed to use the film method, and the result was the "Movietone." More recently, Paramount-Famous-Lasky Corporation, Metro-Goldwyn-Mayer Corporation, United Artists Corporation, First National Universal, Hal Roach and the Christie Film Corporation have arranged to use either one or both of these methods.

In photographing and recording a scene by the disc method—that employed for Vitaphone productions—the first step is taken in a motion picture studio equipped with special facilities. These include one or more microphones placed about the studio, out of range of the motion picture camera, but near enough to the performers to pick up

important as any of these. "Parents need not expect children to assume responsibilities at 15 or 16, unless they are given some responsibilities when they are quite little," she said. "Give youth something constructive to do, whether it is part of the management of the house, playground or work."

The child from a babyhood should have some home duties. It should be taught that home-making is a partnership arrangement and everyone contributes something to the happiness of the home.

French Writer Finds Wives In U. S. "Flighty"

PARIS, Aug. 28.—(U.P.)—American women are too flighty, ready on the slightest provocation to pick up their babies and leave their husbands awaiting the outcome of a divorce suit. That is the interpretation of American womanhood given to French newspaper readers by Mlle Germaine Leblanc, following her recent visit to the United States. "The poor husband enters after a hard day's work. I'm tired of little me saying 'I'm tired of you. I've decided to leave,'" says the French writer.

"It's no a question of money," she adds, "but merely a desire to change the climate, and the poor

Boston Savant May Be Freed Of Blasphemy

BOSTON, Aug. 28.—(U.P.)—Dr. Horace M. Kallen, noted philosopher, probably will not be obliged to stand trial under the Massachusetts blasphemy law enacted some 230 years ago.

A warrant which had been issued for the savant's arrest in connection with a speech he delivered at the Sacco-Vanzetti memorial services here last Thursday was recalled today by municipal Judge Michael J. Murray.

The action was taken after the judge had studied the ancient statute and a stenographic report of Kallen's speech. It was stated that the chances of the warrant's ever being served were slim.

In his speech, Dr. Kallen was alleged to have said: "If Sacco and Vanzetti were anarchists, St. Francis, De Asis, was an anarchist, Giordano Bruno was an anarchist, Thomas Jefferson was an anarchist, Abraham Lincoln was an anarchist."

It was alleged that the philosopher violated the state law against blasphemy with his reference to Jesus Christ. Judge Murray after reading the speech decided that the allegation was not well founded and that it would be impossible to get a conviction.

Nations Asked To Sign Pact

WASHINGTON, Aug. 18.—(U.P.)—The United States has formally invited all of the remaining nations of the world except Russia to join the fifteen who have just signed the Kellogg-Briand anti-war treaty.

Russia was not formally invited but has been given to understand she may communicate her adherence to the treaty through the French government. This indirect method was taken because no diplomatic relations exist with Soviet Russia.

Four governments already have signed their intention of adhering to the treaty: Denmark, Peru, Jugoslavia and Rumania.

SEVEN KILLED IN COLLAPSE OF N. C. BANK

SHELBY, N. C., Aug. 28.—(U.P.)—The debris of brick, plaster and twisted planks—all that remains of the three buildings which collapsed today, crushing out seven lives was searched tonight for the bodies of four workmen missing since the crash.

Police firemen, relatives of the missing and friends, pulled and tugged at the mass of wreckage, trying to penetrate its depths. Out of the ruins earlier in the day were lifted the bodies of four employees of the First National bank, two farmers who had come into town to deposit money, and a negro, as yet unidentified. The four missing men were believed trapped in the basement of one of the buildings, near where a retaining wall they had flung up, gave way, bringing with the structures of three buildings in the heart of this town of 40,000 population.

INFORMAL OPENING

Next Friday, August 31st

Afternoon 3:00 to 5:00 o'clock
Evening 7:30 to 9:00 o'clock

Music Both Afternoon and Evening
By Denny Shaw's Orchestra

On this day nothing will be sold but you will be privileged to examine the store and the merchandise.

We especially call your attention to the Candy department where not only the quality of candy sold must be the best at the price, but where sanitary methods of display and handling are supreme.

The Candy display fixtures, termed units, being built of mahogany with imported opaline glass bottoms, French plate mirrors, and nickel silver trimmings with plate glass covers, are so arranged as to make the case absolutely fly, dust and germ proof, as well as keeping it fresh.

The method of handling reserve stock is embodied in a sanitary container placed in the rear of the candy unit and so adjusted that original boxes of candy received direct from the factory, are placed underneath the cover so that candy sales are made under the most sanitary conditions.

FOUR BOATS IN TESTS TO ENTER TROPHY EVENTS

DETROIT, Aug. 28. (U.P.)—Four boats will race in elimination trials here tomorrow to determine an American team to defend the British International Trophy against England.

Aspirants for the honor of defending the cup are: James Talbot, owner of the Los Angeles, H. Alex Johnson of New York with his "Scorpion," and Gar Wood of Detroit with the "Miss America V and VI."

Three boats, the maximum allowed by the rules of the race, will be chosen not only on the basis of speed but also on that of maneuverability and of seaworthiness to represent America.

The British entry will consist of only one boat, the "Eselle II," owned by Miss Betty Carstairs. It is a Saunders-Napier racer and has an estimated speed of 89 miles an hour. She probably will drive it herself.

The race is for "unlimited hydroplanes" not over 40 feet in length and whose means of propulsion is "in and against the water."

Although Gar Wood's "Miss America VI," sank in a trial spin Aug. 12, the engines have been raised from the bottom of the St. Clair river and will compete in the elimination contests. Its speed was estimated at 105 miles an hour when it sank.

Possession of the cup will be determined by two races of 20 nautical miles each. If neither team has won both races a third and deciding race will be held on Sept. 4. The course will be laid out in the Detroit river opposite Belle Isle as usual. Laps will be five miles long.

The Yachtsmen's Association of America is promoting the race with the International Committee supervising.

The British International Trophy, symbol of world supremacy in motor-boat racing, has been won by America seven times out of nine she has competed. There have been 13 races.

WEAK CLUBS OF LOOP BEAT THREE LEADERS

SAN FRANCISCO, Aug. 28.—(U.P.)—Rebellion of the weaker teams of the Pacific Coast league which started last week was more pronounced than ever today and each of the three leaders of the circuit were defeated.

Portland, seventh place team beat the league leading Stars, 14 to 6. The Beavers made eight runs in the sixth inning and scored in four other frames. Holywood made four errors.

The Los Angeles Angels, in fifth position, beat the second place Senators, 6 to 1, allowing the Solons their only score in the first inning. The Angels pounded the offerings of three pitchers freely.

Dumovich, Oakland hurler, shut out the Seals. The Oaks were only three games behind the third place Seals by virtue of the 3 to 0 victory. San Francisco obtained only four hits.

Seattle beat the Missions, 12 to 9 in the fourth surprise of the day.

PAUL WANER IN FIGHT TO LEAD LOOP STICKERS

Who will win the batting championships of the two major leagues this season? Paul Waner, fleet outfielder of the Pittsburgh Pirates, has a splendid chance to repeat in the National League. He won the National League batting title last year with an average of .30 and is hovering around the top again this season.

Harry Heilmann, husky outfielder of the Detroit Tigers, already has eliminated himself from the race for the batting leadership of the American League. Heilmann won the American League batting title last year with an average of .339 but is having trouble staying around the .300 mark this season.

Heilmann wasn't due to win the American League crown this season, on the basis of his past performances. He is an every-other-year hitter. He won the batting championship of the American League in 1921, 1923, 1925 and 1927. This is his off year.

One of Paul Waner's closest rivals for the National League honor is none other than Rogers Hornsby, manager and second baseman of the Boston Braves. Hornsby was runnerup to Waner last year with an average of .361. Hornsby was for six consecutive years batting champion of the National League, beginning in 1920. When he led the Cardinals to the National League pennant in 1926, he slumped away to .316 and Eugene Hargrave, Cincinnati Red's catcher, replaced him on the throne. Hargrave's average was .353.

In the American League another former batting champion, Harry E. Manush, is in the thick of the battle for the batting crown. While with the Detroit Tigers in 1926, Manush won the title with a batting average of .377.

George Sisler, batting champion of the American League in 1920 and 1922, is a contender for the National League title. If Sisler should happen to come through, he will be the first player to win the premier batting honor in both major leagues.

Two other strong candidates for the National League honor are Freddy Lindstrom, third baseman of the New York Giants, and George Grantham, first baseman of the Pittsburgh Pirates.

The St. Louis Cardinals have three outside contenders, Jim Bottomley, Chick Hafey and Taylor Douthett. All of them are hitting in the first ten.

Al Simmons, who just missed the title in the American League last year, is one of the leading contenders in the junior circuit; again, Simmons hit .392 last year, six points less than Heilmann. Simmons is slugging the ball at a terrific clip and is among the first five hitters.

The Philadelphia Athletics have three other contenders, Jimmy Fozz, Bing Miller and Ossie Orwall, all of whom are in the first ten.

Lou Gehrig, voted the most valuable player in the American League last year and who was third in batting with an average of .373, is batting up with the leaders again. Tony Lazzeri, Yankees' second baseman, is also among the leaders.

Goose Goslin, the Washington Senators' outfielder, might have won the American League batting honor, but for an unfortunate arm ailment which kept him out of the game for a long time. Goslin, however, is still a dangerous contender and may come through in spite of all handicaps.

FOOTBALL ARMY OF NATION WILL MOBILIZE SOON

By GEORGE KIRKSEY
United Press Sports Writer

The annual fall hysteria, with its flying tackles, tumbled punts, triple passes and sweep runs, is only a month away.

The nation's football army will mobilize next month and a thousand and one coaches will begin a frantic search for another "Red" Grange, another Benny Oosterbaan and another Ernie Nevers.

From logging camps, ice wagons, steel mills and gymnasiums will come thousands and thousands of young athletes bent on making a place on the varsity eleven.

No drastic changes were made in the football rules during the winter, and the game this season will be almost identical with the game as played in 1927.

The three minor changes, briefly, follow:

1. The backward or lateral pass must be thrown a distance of two yards before striking the ground and is dead at point of recovery.

2. Either a muff or fumble of a punt may be recovered but not advanced beyond point of recovery; a forward pass and who has crossed the line may interfere with an opponent until the ball has been touched.

A large number of schools will begin football practice the first week in September. Yale, Harvard and Princeton, the last of the eastern teams to begin training, open camps September 17.

A few minor games are scheduled for Saturday, September 22, but the official opening will not take place until Saturday, Sept. 29, when practically all of the leading teams get into action.

Women Jaile d For Picketing

RAMBOUILLE, France, Aug. 28 (U.P.)—Like their militant fore-runners of pioneer suffragettes, ten world-known feminists today discarded the smooth gloves of diplomacy to carry by force their equal rights plea to the plenipotentiaries of 15 nations assembled here. And, like those first, stern suffragettes, they were carried struggling and kicking to jail where they were served with tea.

Several hours in jail failed to dim the enthusiasm of the feminist leaders, however, and tonight Doris Stevens, wife of Dudley Field Malone, New York lawyer, was just as vigorous in her denunciation of the manner in which their plea had been received as she was before court.

"We are tired of being shunted from Embassy to Embassy," she protested. "We only desired to send a letter to President Doumergue when we attempted to enter the gates of the summer Presidential palace. We have not received satisfaction in regard to our request to foreign minister Briand for a ten minute interview with the plenipotentiaries."

AGREEMENT ON R.R. WAGE ENDS STRIKE DANGER

WASHINGTON, Aug. 28.—(U.P.)—An agreement on rates of pay and working rules has been reached by conductors, trainmen and railroads of the Western territory, probably ending the threat of a strike in this area, Chairman Winslow, of the Federal board of mediation announced today.

Final approval of the agreement Winslow said, is subject to ratification by the Association of General Committees of the Western territory. This failing, he said, "The dispute will continue to exist as heretofore and will have to be treated in accordance with law."

Winslow said that pending ratification by the Association, the employees organizations have all agreed to provisions insuring the president and the board of mediation a reasonable opportunity to proceed under law, so far as the calling of a strike before any further action has been started by employees.

Baroness-Artist Lives Meagerly In New Orleans

NEW ORLEANS, Aug. 28.—(U.P.)—Baroness Lucienne de St. Mart, artist and Russian refugee, resides in a small studio apartment in the old French quarter in New Orleans where she earns a meagre livelihood by restoring the paintings of other artists and making crayon portraits of her friends. Her present existence is in marked contrast to her once luxury in France and Russia where she had money and affluence.

Baroness St. Mart, of French blood, made her home in Russia for nearly 10 years prior to the great World War and the subsequent revolution that resulted fatally for the czar and his family and put the Bolshevik regime in power. She lost all her property and money in the change of government and considers herself lucky that she escaped with her life—by using Swedish passports.

Baroness St. Mart painted much for the Russian royal family during her sojourn in that country. In spite of her changed circumstances she appears happy and is frequently seen at studio parties. Baroness St. Mart is not bitter concerning the Bolsheviks. "It was just their turn; they had been brutalized for centuries," she says.

4 MURDERED IN LOVE TANGLE AT SACRAMENTO

SACRAMENTO, Cal., Aug. 28.—(U.P.)—Four persons involved in a tangled martial affair of Percy Barnes, 35, were dead tonight and Barnes was held in the city jail on murder charges.

L. R. Koburn, 28, railroad employee who was blamed by Barnes of two of the murders but denied he had been out with the man when the four victims fell from bullet wounds, was held for questioning.

The fiancée of Barnes' divorced wife, Clarence Muncy, was the first victim. He was shot in front of Mrs. Barnes' home. Two brothers and a cousin of Mrs. Barnes, Charles E. Curtis, Charles Klein and Len Gerhart, were killed a short time later.

Barnes admitted killing Muncy and Curtis, but claimed Koburn was guilty of the other crimes after taking the men "for a ride."

According to the asserted confession, Koburn witnessed the fatal shooting of Muncy and then drove with Barnes to Curtis' home where Barnes demanded the right to see his baby. This was refused and Curtis was killed. Then Klein and Gerhart accepted separate invitations to go automobile riding with Barnes and were shot when they got out "to see if a tire was flat," police claimed.

Horse Giving Blood To Save Human Lives

ROCHESTER, Mich., Aug. 28.—Tess, one of the world's greatest life-savers, observed her 15th birthday at Parkdale Farm here today.

Tess is a mare who has never been hitched to a wagon but who has, nevertheless, pulled thousands of lives out of danger. When she was four years old she was added to the herd which is maintained by the Parke-Davis Research laboratories to provide serum in the war against disease. It was in May, 1917, that she came to Parkdale and she was immediately assigned to the group producing tetanus anti-toxin for the protection of the American soldiers.

In the eleven years she has been on the job, Tess has produced 1,023 quarts of tetanus anti-toxin, containing 265,062,950 anti-tetanic units which amounts to thousands of doses. The soldiers in the war and numerous civilians since then owe their lives to Tess who has enabled them to be protected from the danger of infection from lockjaw.

Although Tess is serving man in a unique way, she is no martyr to science or to humanity. She has already exceeded the life expectancy of the average horse and seems well content with her lot. She has never been sick or laid off for any reason.

FAMILY RETURNS FROM CALISTOGA VACATION

Peter Martin of 428 Elzabeth street, a member of the Richmond fire department, with his family has returned from a vacation of two weeks spent at Calistoga.

Memorial in Modern Manner

SQUARE-JAWED fighters from stone in this modernist memorial erected at Soissons to commemorate the gallant battling there in the summer of '18 by French, British and American troops. The work attracted excited comment, much of it unfavorable, at the time of the dedication.

RICHMOND, BERKELEY SCHOOL AUTHORITIES SPLIT IN ROW

(Continued from Page 1)

putting districts were objectionable and that there was danger in traveling steep hills from Kensington to Richmond in wet weather.

W. T. Helms, superintendent of Richmond schools, declared that Richmond was ready to care for the Kensington children and did not feel justified in paying money to Berkeley for their education when adequate facilities were available in their own county. He scoffed at statements of parents that busses were unsafe and refused to step down from a previous stand that the children be barred from Berkeley schools.

In a lengthy discussion of the situation, members of the Berkeley board of education expressed their sympathy with the stand of the Kensington parents but declared that in view of overcrowding conditions in the Berkeley schools, the Kensington pupils could not be accepted with only the state and county reimbursement allowed for daily school attendance reimbursement from Richmond to meet full educational costs, the board members declared, was necessary.

A conference between the two boards of education was authorized by the Berkeley school authorities after the latter board had agreed to accept the pupils for another year if Richmond was willing. All of the pupils affected are enrolled in seventh, eighth and ninth grades in the Garfield Junior High school.

Pending settlement of the controversy, parents of the 27 children have secured the services of a teacher for a temporary school which will open today.

HOT OFF THE GRIDDLE

Continued From Page One
belonging to an American President.

PRESIDENT COOLIDGE, away from political strife, amazes his companions by making twenty-four hits out of twenty-five shots at clay pigeons, using a 12 bore repeating shotgun at the unusual distance of forty-eight yards. Roosevelt would have let the public know he could do this BEFORE election instead of at the end of his administration. But the quiet Coolidge does not care for the hurrah. Yet he is beginning to reveal himself as a very human gentleman. We will remember him as a man who had a knack of doing most things well.

BOYS WILL LIKE TO READ about Paul A. Siple, 19, Eagle Scout of Erie, Pa., chosen by Boy Scout officials to accompany Commander Byrd on the great expedition to the Antarctic. Paul is called a lucky boy to have been chosen for this honor. Few lads of his age have had this opportunity for adventure and practical training—a real education and disciplinary training among brave men. THAT will mean more to Paul than four years in college. He earned his honors because of physical fitness, adaptability, stamina, skill, hobbies, initiative, resourcefulness and character. If you can develop all of these qualities at 19 you will not have to go to the South Pole to make good.

FROM THE FAR-OFF Reaches of Coney Island comes the tragic tale of a round dozen of young men and women who danced a marathon 629 hours only to discover that their promoter had departed. Those 629 hours divide into twenty-four days with five hours to spare. Almost a month. Battles which have changed history have been won in less time. Some of America's largest fortunes were made in shorter time. The Bible tells us God created the entire earth and all upon it in six days and rested on the seventh. These marathon dancers do not value the time they are flinging away. All they will be able to tell their grandchildren if they ever have any, is that they danced for 629 hours without sleep and that people yelled at them to go home.

PROFESSIONAL Pugilism seems to be in a bad way. The heavyweight champion has left it to go into society, and he has no successor. There is no bantamweight champion, and the kings of the other classes seem to be chiefly synthetic. Big business has taken the word "sport" out of boxing. Fight fans no longer will pay exorbitant prices for poor fights.

EGYPT FAMINE IS FOUGHT BY YOUNG LAWYER

CAIRO, Aug. 28. (U.P.)—Egypt is frequently described as the land of paradox, and no more paradoxical situation could exist than that which arose soon after the armistice, when cotton rose to eight times its normal price, while in the towns and cities tens of thousands were on the brink of starvation.

The Government had fixed the price of sugar and flour and bought big supplies for distribution to the needy, but the middlemen provided the only machinery of distribution and they not only defied the government regulations, but withheld supplies from the market. It was in these circumstances that a young nationalist lawyer of Damietta accomplished what the Government had endeavored in vain to achieve.

Ameen Effendi Yusuf had established himself in Damietta ten years before without a penny in the world, for his father had died even before he had completed his studies, and had become one of the most respected citizens of that ancient seaport.

Of the population of 32,000, over three-fourths were starving, living on rice husks and grass. A disbeliever in promiscuous charity, Ameen Effendi Yusuf called upon one hundred of his most wealthy friends to provide funds to finance a cooperative store, for which he promised to try to obtain the sole right to distribute government supplies of sugar and flour.

He obtained what he wanted immediately, and set off for Cairo to beard the authorities in their den, and once again met with immediate success. The Food Controller was his old professor, and the Adviser of the Ministry of the Interior, Sir Gilbert Clayton, turned a deaf ear to insinuations regarding Ameen Yusuf's political opinions.

Within a short time the store was functioning. One sympathizer made a free gift of premises, and such was the success from the outset that the original capital was turned over twice a month.

Sugar and flour at the regulation prices, which allowed a fair profit, were sold on ration tickets to all who applied, while rice, lentils and oil, the staple foods of the poor, were sold to the poor only at 30 per cent under cost and 60 per cent under prevailing prices.

Six thousand families were supplied at the rate of one thousand daily every week, and very soon the story of the success of the experiment reached Cairo. Sir Gilbert Clayton sent for the young lawyer and asked him to extend his initiative to other parts of the country, with the result that soon twenty-six establishments were functioning, with a total capital of about half a million pounds, and about 350,000 poor were benefited in the cities.

This magnificent results was acknowledged in official letters of thanks from Lord Allenby on behalf of the British Government, and from Sir Gilbert Clayton on behalf of the Egyptian Government.

The cooperative movement has since become a permanent feature of Egyptian life, but it lacks coordination and centralized control. In order to introduce the necessary reforms Ameen Yusuf, now Assistant Secretary of the Egyptian Senate, is visiting Europe during the summer to study the methods of cooperative societies in Germany, Italy, and other countries. He has been given official introductions to various Governments, and has been accorded various facilities for travel by land and sea, and even by air. He leaves Egypt on July 14 for Munich for a rest before undertaking his task.
